

St. Joseph's Catholic Primary School

Policy 51: Administration of Medicine

Author: Mrs Deery

Mission Statement

“In God we trust at St. Joseph's we achieve”

The aim of St. Joseph's is to ensure our pupils fulfil their potential, educationally, spiritually, and morally. The school endeavours to ensure that pupils have every opportunity to succeed and fulfil their true potential. The school provides a Christian and loving and caring environment in which pupils can work, develop and play.

Created: February 2009
To be reviewed: February 2010

Introduction

Regular school attendance is vital for every child, the Governors and staff do all that it can to maintain high attendance figures. However there will be times when a child is ill and needs to have time away from school to recover. We ask parents to support the school and to keep children at home if they are infectious to others and are acutely unwell. Nevertheless the Governors and staff of St. Joseph's wish to ensure that pupils with medication needs receive appropriate care and support at school.

Legal Aspects

There is no legal duty on non-medical staff to administer medicines or to supervise a child taking it. This is purely a voluntary role, which a member of staff is entitled to refuse to do. Staff should be particular cautious agreeing to administer medicines where:

- The timing is crucial to the health of the child;
- Where there are potentially serious consequences if medication or treatment is missed;
- Or where a degree of technical or medical knowledge is needed.

Staff who volunteer to administer medicines should not agree to do so without first receiving appropriate information and/or training to the child's medical need.

Under no circumstances must any medication, even non prescription drugs such as paracetamol, be administered without parental approval.

Protocol

1. Parents are responsible for providing the Headteacher with comprehensive information regarding the pupil's condition and medication.
2. **Prescribed medication** will not be accepted in school without complete written and signed instructions from the parent.
3. Staff or children will **not** administer **non prescribed** medications, however parents may make arrangements to give their child non prescribed medication themselves if they wish to come to the school and administer it during a mutually convenient time (ie break or dinner periods).
4. Only reasonable quantities of medication should be supplied to the school (for example, a maximum of four weeks supply at any one time).
5. Where the pupil travels on school transport with an escort, parents should ensure the escort has written instructions relating to any medication sent with the pupil.
6. Each item of medication must be delivered to the Headteacher or authorised person, in normal circumstances by the parent, **in a secure and labelled container as originally dispensed**. Each item of medication must be clearly labelled with the following information:

- Pupil's Name,
- Name of medication,
- Dosage,
- Frequency of administration,
- Date of dispensing,
- Storage requirements (if important),
- Expiry date.

The School will not accept items of medication in unlabelled containers.

7. Medication will be kept in a secure place, out of the reach of pupils. Unless otherwise indicated all medication to be administered in school will be kept in a locked medicine cabinet.
8. The school will keep records, which they will have available for parents. If children refuse to take medicines, staff will not force them to do so, and will inform the parents of the refusal, as a matter of urgency, on the same day. If a refusal to take medicines results in an emergency, the school's emergency procedures will be followed.

9. It is the responsibility of parents to notify the school in writing if the pupil's need for medication has ceased.
10. It is the parents' responsibility to renew the medication when supplies are running low and to ensure that the medication supplied is within its expiry date.
11. The school will not make changes to dosages on parental instructions.
12. School staff will not dispose of medicines. Medicines which are in school; medicines which are in use and in date, should be collected by the parent at the end of each term. Date expired medicines or those no longer required for treatment will be returned immediately to the parent for transfer to a community pharmacist for safe disposal.
13. For each pupil with long term or complex medication needs, the Principal, will ensure that a Medication Plan and Protocol is drawn up, in conjunction with the appropriate health professionals.
14. Where it is appropriate to do so, pupils will be encouraged to administer their own medication, if necessary under staff supervision. Parents will be asked to confirm in writing if they wish their child to carry their medication with them in school.
15. Staff who volunteer to assist in the administration of medication will receive appropriate training/guidance through arrangements made with the School Health Service.
16. The school will make every effort to continue the administration of medication to a pupil whilst on trips away from the school premises, even if additional arrangements might be required. However, there may be occasions when it may not be possible to include a pupil on a school trip if appropriate supervision cannot be guaranteed.
17. All staff will be made aware of the procedures to be followed in the event of an emergency.

Appendix 2

REQUEST FOR ADMINISTRATION OF MEDICINES

My child has been diagnosed as suffering from

He/she is considered fit for school but requires the following **prescribed medicine** to be administered during school hours:

Names of medicine

Could you please administer (dosage) at
..... (time)

With effect from (date)
..... (date)

The medicine should be administered by mouth / in the ear / nasally

If other please specify:

I understand that all staff are acting voluntarily in administering medicines and have the right to refuse to administer medication. I understand that the school staff can not undertake to monitor the use of inhalers carried by children, and that the school is not responsible for loss or damage to any medication.

I undertake to update the school with any changes in administration for routine or emergency medication and to maintain and in-date supply of the medication.

Signed: by person with legal responsibility for the young person

Name of signatory: (Please print)

Child's name: (Please print)

Please note the following quotations from the County Code of Practice regarding the administration of medicines at school.

- Children who are acutely ill and require a short course of medication e.g. antibiotics, will normally remain at home until the course is finished. If it is felt by a medication practitioner that the child is fit enough to return to school, the dosage can usually be adjusted so that none is required at lunch-time.
- No medicine should be administered unless clear written instructions to do so have been obtained from the parents or legal guardians and the school has indicated that it is able to do so. It must be understood that all staff are acting voluntarily in administering medicines.
